### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

*Response to Amendment*

1. The reply filed on 6-24-05 is not fully responsive to the prior Office Action , see 37 CFR 1.111, because of the following omission(s) or matter(s): See claim objections to claim 13 as stated below. Examiner waives the “**ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice” requirement for response in order to speed up the processing of the current application. However, Applicant must address every objection and rejection in the next reply, if any.

*Claim Objections*

2. Claim 13 recites "the telephone number directory corresponding to the first telephone number" (line 9). There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 13 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase “the one of the identifies directories” (line 12-13) is not clearly defined. It is unclear what is “identifies directories”.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 7, 10-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Keiko et al, and in view of Vossler (US: 6317593).

Art Unit: 2645

For claims 1, 7, 11, Keiko et al teach on Fig. 1-3 and paragraph 20-34, telephone number changing means to change a number in response to a request to a telephone directory of a registrant who's phone number has been registered in the phone number changer's directory.

Keiko et al teach on Fig. 17 means for confirming in advance before modification.

Keiko et al failed to teach "specify a time at which the telephone number change is to be performed". However, Vossler teaches on column 2 line 23-41, an interface for modifying a schedule for enabling a desired cellular telephone function.

It would have been obvious to one skilled at the time the invention was made to modify Keiko et al to have the "specify a time at which the telephone number change is to be performed" as taught by Vossler such that the modified system of Keiko et al would be able to support the system users a better function of specifying a time to change the telephone number.

Regarding claims 2, 3, 15, all rejections as stated in claim 1 above apply.

Keiko et al teach on paragraph 23-26 and Fig. 6 extracting registrants information for sending a change notification.

Regarding claims 4, Keiko et al teach on Fig. 17 means for confirming in advance before modification.

Regarding claim 8, Keiko et al teach on paragraph 26 the step 6 of Fig. 3 generating the change notification by item 5 of Fig.1 (claimed "portable telephone service provider").

Art Unit: 2645

Regarding claim 10, Keiko et al teach on Fig. 8 means for reflecting telephone number difference.

Regarding claim 12, all rejections as stated in claims 1, 3, 4, 7-11 above apply.

Regarding claims 13, 14, all rejections as stated in claim 1 above apply.

Regarding “central data center”, Keiko et al teach on paragraph 17 data-storage section (claimed “central data center”) where maintains the telephone directory.

5. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Keiko et al as applied in claim 8 above, and in view of Vossler and further in view of Lautenschlager et al (US: 6289091).

Keiko et al in view of Vossler as stated in claim 8 above failed to teach “a telephone number changing unit.....service provider”. However, Lautenschlager et al teach on Abstract – the directory number administration (reads on claimed “telephone service provider”) issues the change order and synchronizes the changes to the subscriber terminal (claimed “number changer”).

It would have been obvious to one skilled at the time the invention was made to modify Keiko et al in view of Vossler to have the “said telephone.....service provider” as taught by Lautenschlager et al such that the modified system of Keiko et al in view of Vossler would be able to support the notification instruction from the service provider to the system users.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
